**Subject:** Options papers with Ben's & Helen's edits  
[may 20 2013 appx BCHRedits.docx](#)  
[may 20 2013 draft BCHRedits.docx](#)

Hre are the papers with Ben's and my comments/edits. Ben brought up the possibility, given these will be public documents, of not giving out a write up like this but rather just the daily comparison analysis that I did, perhaps with some edits to the text. And then the analysis of the border and a graph of the three days of exceedances there.

Given the lack of substance in these documents this might be just as well.

Let me know what you think and send comments.
